General

Layouts:

You have the following options:

- Use our standard layouts from the online shop (please let us know which in the remarks).
- Send us your logos, with instructions as to where to place them in the remarks.
- Send us your own layout, ready to go. Please make sure they follow these specifications:

Technical specifications:

Color space: CMYK (no spot colors)
Profile: ISO Coated v2
Resolution: 300 dpi
File format: PDF (with embedded fonts or vectorized texts)
AI/EPS (send fonts and images)
JPG/PNG/PSD/TIFF
INDD (send fonts and images)

Personalization data:

Send us the event ID or an excel file.

Layout templates:

Templates for InDesign, Photoshop and Illustrator are available for download in this document for every product. Just click on the download link  on the correct page.

RACE RESULT URL:

Please note that the URL "www.raceresult.com" is printed by default on all bibs we produce.

If you do not want the URL to appear on your bibs, you must write it explicitly in the comments when placing your order.

Standard fonts:

Bibs: Helvetica Neue LT Com 97 Blk
Road Bike Plate: Tungsten Semibold
Personalisation: Arial bold

If you would like another font on your bibs, please write it down in the description of your layout, and upload the font file in .otf or .ttf format.

DO NOT include the following elements in your layout:

- Place holder for the bib number
- Place holder for personalization (e. g. firstname)
- Punch holes
- Rounded corners
- Outline of the end format

The RACE RESULT Team will place these for you.

Special Perforation/Die-Cut

New orders:

Select the corresponding option under "Special Perforation/Press Cut" when ordering your race numbers through the online shop.

Costs: USD 500.00

Reordering an existing cutting die:

State your wish in the "Remarks" field, citing the old order-number.

The following costs will be added to your order by our team:

- A one-time setup fee of USD 90.00
- USD 0.04 per race number

Note that in both cases the production time will increase.

Production Note

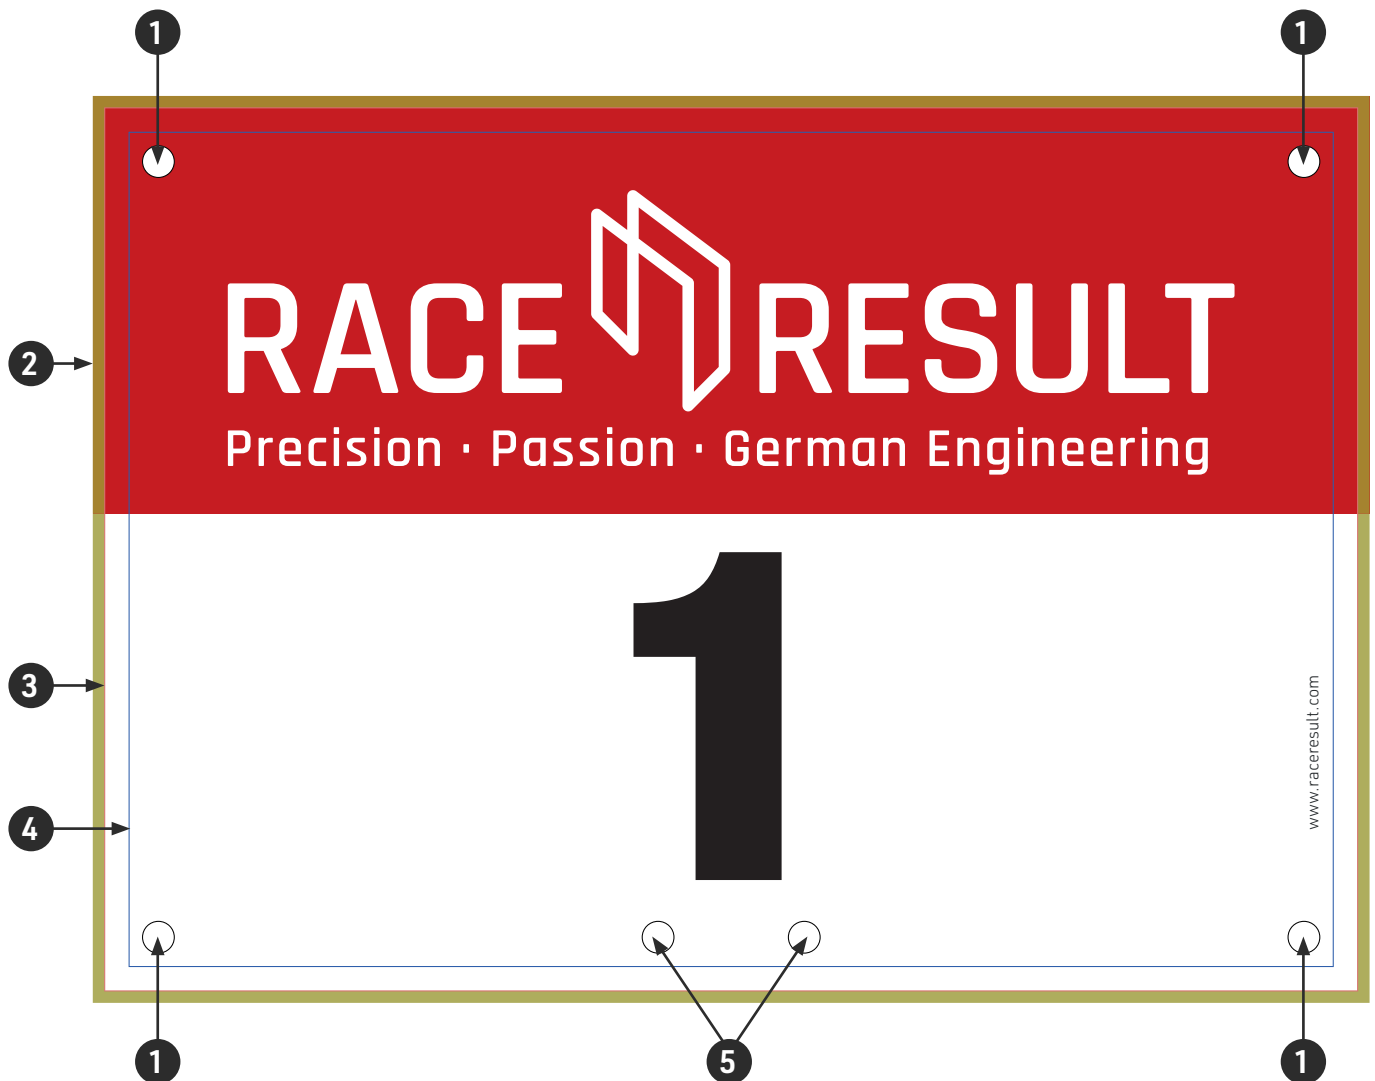

An offset of up to 2 mm (1/16") can occur during cutting of the final format, also differences of up to 1 mm (1/32") can occur during printing. The trim is used to negate the differences from cutting and printing.

Important Notice Regarding the Production Process:

You will receive a preview for all printed products (except for regular bibs and RACE RESULT bibs), that you need to approve for printing. It is not possible to change anything after you have approved the preview.

Contact

For any questions, contact us via email at shop@raceresult.com.

1 Punch holes Tyvek Bibs:	Ø 5,5 mm / 0.22" Position: 9 mm / 0.35" from the top/bottom and from the sides (from the center of the hole to the edge of the end format)
